Summary

Shawn is a well-qualified multi-disciplinary professional with over 31 years of experience in construction, engineering, energy and infrastructure projects. His experience on large scale projects covers many sectors, executed under various contractual arrangements, inter alia, Traditional Contracts, Management Contracting, Construction Management, Design & Build, Turnkey, BOT, PFI and PPP. Shawn specialises in the provision of dispute related services, having previously been employed in two major contract consultancy groups and as senior commercial manager of a large multi-national company where he headed the commercial and risk division, managing and directing operation resources, oversees contract administration, arbitration, adjudication, and other legal matters. The combination of his technical, quantity surveying, project management, IT, law and business administration skills enables him to assist clients in a broad range of issues and maximising the prospects of success in a cost-effective manner. He counsels employers, contractors and subcontractors in commercial, retail, office, residential, civil engineering, industrial park, power plants and airport projects and was recognised for his ability to effectively resolve complex and difficult commercial and contractual matters.
